Taxonomic name: *Loxodonta africana*
Common name: AFRICAN ELEPHANT

Family: Elephantidae
Order: Proboscidea

Current information

Sex: Male Sire ID: 980764 at Disney's Animal Kingdom
Birth type: Captive born Dam ID: 1062 at Indianapolis Zoo
Birth Location: Indianapolis Zoo Rearing: Parent
Birthdate-Age: 4 Aug 2000 - 2Y,0M,18D Hybrid: Not a hybrid
Time since last Acq: 2Y,0M,18D as of report end date

Date	Identifier type	Identifier	Location
4 Aug 2000	Regional Studbook #	515	AZA
23 Aug 2000	House Name	AJANI	Swahili for "he who wins the struggle"

Date	Type	Value	Units
4 Aug 2000	live animal weight	114.31	kilogram 252#
5 Aug 2000	live animal weight	110.68	kilogram 244#
7 Aug 2000	live animal weight	104.33	kilogram 230#
8 Aug 2000	live animal weight	103.87	kilogram 229#
9 Aug 2000	live animal weight	100.70	kilogram 222#
10 Aug 2000	live animal weight	104.33	kilogram 230#
11 Aug 2000	live animal weight	106.14	kilogram 234#
13 Aug 2000	live animal weight	104.33	kilogram 230#
14 Aug 2000	live animal weight	104.33	kilogram am weight; 230#
14 Aug 2000	live animal weight	101.60	kilogram pm weight; 224#
15 Aug 2000	live animal weight	102.06	kilogram am weight; 225#
15 Aug 2000	live animal weight	103.42	kilogram pm weight; 228#
16 Aug 2000	live animal weight	104.33	kilogram am weight; 230#
16 Aug 2000	live animal weight	104.33	kilogram pm weight; 230#
17 Aug 2000	live animal weight	103.42	kilogram am weight; 228#

Note: Ajani's initial weight loss is due to maternal rejection during his first few weeks of life. The elephant staff trained first-time mother Ivory to allow nursing but true bonding did not develop until three weeks after birth. We then saw the upward trend in weight.
